

# Department of Mathematics

## *Spring 2018 Colloquium Series*

### **Introductory LaTeX Workshop**

Brad Ballinger, Ph.D., HSU Mathematics Department

Would you like to write mathematics with a publication-quality appearance? The American Mathematical Society says: “Many mathematics publishers (including the AMS) strongly encourage the use of LaTeX”. If you plan to write for a math class or submit articles to journals, LaTeX is worth a look. (It’s free.)

This workshop is intended for all Mathematics majors and interested community members. If you can use HSU lab computers, you don’t need anything else. Optionally, bring a laptop with a working LaTeX 2e installation OR web access and an Overleaf account.

**Thursday, January 25, 2018**

**Science A 364, 4:00 pm**

For more info, go to <http://www.humboldt.edu/math/news-and-events/math-colloquium>

*Please note: because the meeting location is a computer lab across campus, we will skip the tea this week.*
