Thursday, April 19, 2018

BSS 204, 4:00 pm

Large numbers can simultaneously be hard to fathom, beautiful, mysterious and humbling. Delving into this seemingly innocent topic opens a surprisingly rich world that is quite literally bounded only by one's imagination. In the context of "large numbers" I will discuss hyperoperations and their mind-bending powers. I will do so without assuming any material prerequisite math knowledge.

For more info, go to <http://www.humboldt.edu/math/news-and-events/math-colloquium>

We cordially invite you to the Pre-Colloquium Tea on the third floor of the BSS building at 3:30 pm on Thursday.
